WONDERFUL CATARRH CURE

Glenhays, W. Va., Jan. 1, 1912.
Mr. W. D. Fitzpatrick.

Glenhays, W. Va.
Dear Sir:—I bought one box of your great catarrh cure and used it according to directions, and now I can say and also swear that I am cured. I had had the catarrh of the nose and head for five years. I had lost all hopes of ever getting a treatment that would cure me, but yours has done the work and I am so thankful to you, for you no doubt have saved my life as we are aware that catarrh causes consumption. I can find words to express my thoughts and appreciations towards you and your great catarrh remedy as I would like to.

Yours Very Truly,

ORA ARTRIP.

This the 1st day of Jan., 1912, Ora Artrip personally appeared before me and duly swore that the above statement was true to the best of his knowledge, so help him God.

Given under my hand this the 1st of Jan., 1912.

W. J. CRUM,

Notary Public.

My commission expires Nov. 27th 1913.

OUR SCHOOL DEPARTMENT.

The last installment due the teachers from the Auditor has not been received, and I was informed by the State Superintendent while in Frankfort a few days ago that it would probably be two months late, owing to lack of funds.

I have just received the following letter, relative to the issuing of Graduating Certificates on examination recently held:

Department of Education.

Frankfort.

February 7, 1912.

My dear Superintendent:

The Department will be considerably delayed in sending out Common School Diplomas. This is due to the fact that I found only a few hundred blanks in the office, while more than a thousand pupils have passed the examination successfully. The diplomas will be mailed to you at the earliest possible date.

BARKSDALE HAMLETT,

Superintendent.

In regard to the Boy's Corn Growing Club, I would like for a great many more boys to send in their names and address, to enter the contest you should be between the ages of 10 and 20. I will receive entries up to Saturday Feb. 24, at which date I will make my report to the Commissioner of Agriculture.

Some persons have written me in regard to the premiums awarded at the corn fair held some time ago saying they had not yet received their premium. I had no connection whatever with that contest and I do not know why premiums have not been sent.

It is my intention to organize several corn clubs throughout the county, the coming spring at which time officers will be elected and rules and regulations for governing same adopted, which will be furnished by the Agricultural Dept., at Frankfort. If enough boys can be induced to join these clubs a large premium will be arranged, the clubs will hold regular meetings for discussing farm topics and literature and books helpful to the farmers can be received from the Agricultural Dept. by all the members free.

Similar work is being done in many counties of this State and the Educational value of these organizations will be of great benefit not only to the members but to farmers in general.

On the last day I had a large crowd of patrons as well as scholars and we had an old fashioned spelling match in which the fathers and mothers took an active part as well as the scholars.

There was not a parent that refused to spell when chosen. After the match was over we had some recitations and speeches by the patrons. I prescribed a traveling library for my school and all seemed to like it very much, and parents use it as well as the children.

Court of Appeals: Salsberry vs. Commonwealth, Floyd; affirmed.
C. & O. Railway Company vs. Patton, Floyd; reversed.

Thirty prisoners were released at the Boyd county jail Sunday, twenty-two of whom served a jail sentence for moonshining and five near Beaver, Ky.

Whiteburg, Ky., Feb. 7.—A band mill of 35,000 capacity has been started at McRoberts, the new city of the Consolidation Coal Company, on Wrights Fork, with the idea of supplying a large part of the material to be used in building the city, planing mills and dry kilns will also be installed.

Salersville, Ky., Feb. 7.—The Rev. W. A. McCombs evangelist of the Baptist Home Board has just closed one of the most enthusiastic protracted meetings ever held at this place, there being more than 100 conversions, with fifty additions to the First Baptist church. He raised about \$1,600 for the erection of a stone church here.

Whiteburg, Ky., Feb. 12.—At Wrights Fork, above here, Mrs. Bud Combs was so horribly burned that she died within a few hours. Mrs. Combs, who was not well, was lying near the fireplace, when her clothing caught fire. She ran outside, and her husband, who was at work a short distance away, saw her plight and ran to her rescue, arriving too late to save her. The woman died in great agony.

Analiza Griffith, of White Oak, was fatally burned Tuesday night. She had lighted her pipe and threw the burning paper at her feet. Her dress caught on fire and she walked into another room before she discovered the fire.

James Bailey and others attempted to extinguish it when they themselves were badly burned. Mr. Bailey and the skin burned off his arms to the elbows.—Salersville Mountaineer.

Pistols are made for two purposes to kill men and to get our boys in jail. Judge Patton once said while instructing a grand jury in Pike county that he could go and over Pike county and never need a pistol; that he could go all over Letcher county and never need a pistol; and said he, "Boys, if you go to hell you won't need a pistol. So what is the use of raining your pockets and breaking the stretchers in your new suspenders by tugging the worthless junk around here among civilized men trying to make a name for yourself that your children will be ashamed of?"

Last Monday while returning from court Callie Howard "Nath's Callie" and his son Oscar stopped at the store of James Deem, Callie's brother-in-law, to purchase some hot drops. Deem states that he refused to sell them when his wife let her brother have the hot drops. He referred to Howard's not paying what he owed him. Mrs. Deem told her husband that Oscar was "pulling a pistol." Deem rushed for the boy showing him and possibly striking him when the father stabbed Deem twice—once through the suspender just above the buckle near the heart and once just above the hip. Deem ran to his room secured a revolver, and fired five shots at Howard's as the rode away. His wife knocked the gun at each firing thereby possibly saving the lives of her brother and nephew as it is said that Deem is a crack shot with a revolver.—Salersville Mountaineer.

Experience is going to be a costly teacher for Pike county in the new judicial district.

More cases were tried in Pike county last year than in any other county in the State. Judge Kirk gave three months more service to Pike county last year than the law asked of him—something that it will be practically impossible for the Judge of the new Letcher Pike district to do as Letcher will take as much, if not more, of his time, as Pike county will. Martin, Pike, and Johnson made the ideal district for all three counties. We are going to lose a good judge and district, and Pike is sure to feel the loss of both.—Pikeville Herald.

The next few years will show the wisdom and foresight of forming a district composed of Pike and Letcher counties. Pike is the largest county in the State and the richest in mineral resources. Letcher is not so large, but proportionately wealthy. The development is just starting. There will be business enough to keep a Circuit Court busy almost continuously.

Doctors Said Health Gone

Suffered with Throat Trouble

Mr. B. W. D. Barnes, ex-Sheriff of Warren County, Tennessee, in a letter from McMinnville, Tennessee, writes: "I had throat trouble and had three doctors treating me. All failed to do me any good, and pronounced my health gone. I concluded to try Peruna, and after using four bottles can say I was entirely cured."

Unable to Work.

Mr. Gustav Himmelreich, Hochheim, Texas, writes:

"For a number of years I suffered whenever I took cold, with severe attacks of asthma, which usually yielded to the common home remedies."

"Last year, however, I suffered for eight months without interruption so that I could not do any work at all. The various medicines that were prescribed brought me no relief."

"After taking six bottles of Peruna, two of Lucania and two of Manala, I am free of my trouble so that I can do all my farm work again. I can heartily recommend this medicine to any one who suffers with this annoying complaint and believe that they will obtain good results."

BLESSED ARE THE MERCIFUL.

One of the most pathetic cases that has ever been at a Lexington hospital is that of a three-year-old baby, a little girl from the mountains, who was brought to the Good Samaritan Hospital Tuesday afternoon by her father and was found to be in so serious a condition that several diseases, one of which threatens to destroy her sight while another imperils her life.

The baby was brought to Lexington Tuesday afternoon at 5 o'clock on the L. & E. train by her father. Both were so thinly clad that bystanders almost shivered at the sight of their pitiable condition. The piercing wind searched its way through their thin clothing and it numbed their trembling limbs. The man's teeth were chattering and after a time the poor little girl began to cry.

Among the bystanders in the train was a kindhearted substantial citizen of Lexington, and he stepped forward and asked where the child was being taken and whether or not he could do anything for them. The mountaineer was grateful for the kindness and told him that the child was being taken to an oculist, whose name he gave for treatment as a gift from the Mountain Fund of the Kentucky Society for the Prevention of Blindness.

Realizing the desperate condition of the child, the kindhearted Lexington man took off his overcoat, wrapped it about the baby and led the way to the office of the oculist. There it was found that the child must be sent to the hospital and the generous man's pocketbook backed up his other kind acts. At his own expense a cab was ordered, and the child was taken to the Good Samaritan Hospital and given special treatment.

It is for cases of this sort that the Mountain Fund and the Society for the Prevention of Blindness are intended and in which they are accomplishing great good.

Late Wednesday afternoon the little girl's condition was serious, but it was said at the hospital that the chances seemed to be in favor of her recovery.—Lexington Leader.
